Inauguration of Technology, Innovation and Digital Economy (TIDE) Advisory Council

Digital Government

- Deploying OSUN ONE, the unified digital government platform for citizen access and public services.
- Digitizing core government operations across key ministries and agencies e.g. C of O
- Establishing a centralized MDA data framework to enable integration, coordination, and data-driven decision-making.

Public Safety & Citizen Engagement

- Commissioned the Osun Emergency Call Center 293) with multi-channel access: voice calls, WhatsApp, web forms, and email.
- Initiated the Osun Safe City Project to enhance urban security with smart surveillance infrastructure
- Developed the Osun Sex Offender Register to strengthen public safety and accountability.
- Deployed a real-time Citizen Feedback System across digital and physical service points to improve responsiveness and trust.

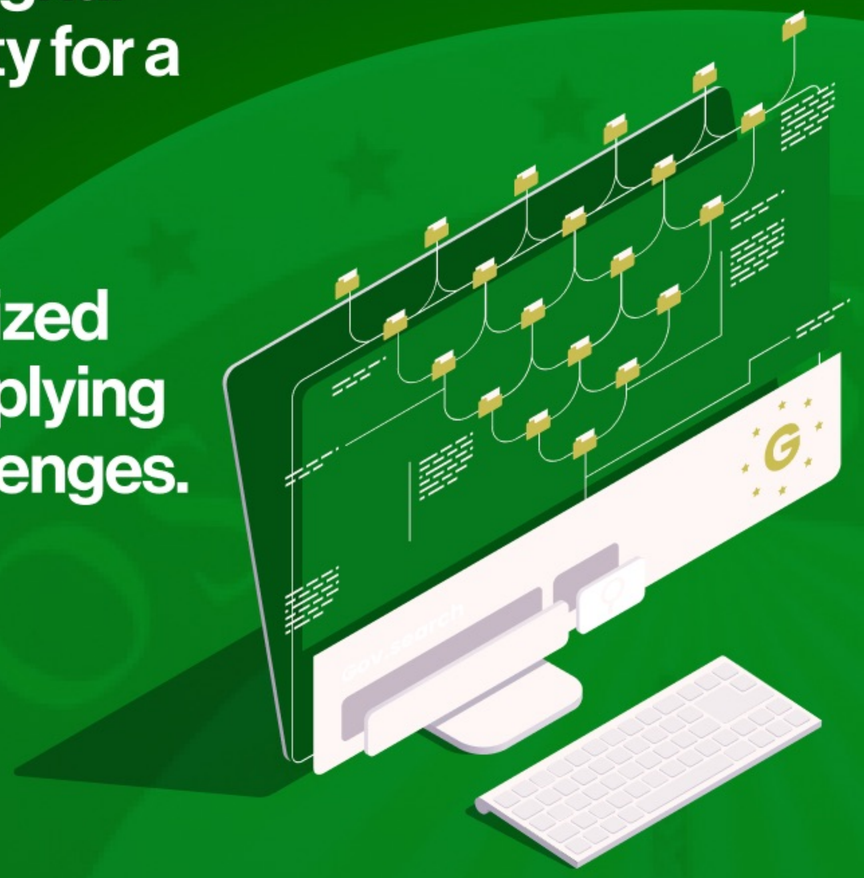
AI and Emerging Technologies

- Unveiled Orunmila - a secure, community-based AI system and framework designed to power daily government operations and citizen services across Osun State.

- Commenced Osun State's first AI-driven government website, enabling intelligent public service delivery and digital engagement.

Skills and Talent Development

- Trained youth and public service workers in digital literacy and cybersecurity to enhance capacity for a digital economy.
- Sponsored next-generation youth for specialized training abroad in key sectors, focusing on applying acquired skills to address Osun-specific challenges.



Agriculture and Social Impact

- Rolled out a low-cost Backyard Farming initiative to boost household food security and reduce reliance on market purchases.

Digital Economy

- Developing the Osun State Digital Economy Policy as the state's roadmap for digital transformation.
- Drafting landmark legislation - Startup Act, Data Protection Bill, and AI Governance Bill.
- Drove the Startup Act from concept to signing, set up the State Technology Advisory Council, and submitted the draft Data Protection and AI Governance bills to the House.
- Rolling out the Osun Smart Resident ID (OSRID) in line with the national DPI model.
